1. Urine Collection (1010)

The vendor shall perform the following procedures related to the collection of urine specimens. The Designee will provide the vendor with the necessary urinalysis collection materials (i.e. Chain of Custody forms, vials, specimen bags, mailing boxes,

mailing labels which include the cost of shipping); however, the vendor is responsible for printer ink, disposable gloves, cleaning agents, coloring agent, etc.

a. Storage of Urinalysis Supplies

The vendor shall:

- (1) Store all urinalysis supplies in a secure area with access limited only to authorized vendor employees involved in the collection process.

b. Secure Collection Area

The vendor shall:

- (1) To the extent possible, provide a lavatory only for collecting urine specimens that is not used by staff or others not providing urine specimens.
- (2) If the lavatory is used by others not providing a urine specimen, the vendor shall:
 - (a) Limit the possibility of any interference with the collection process or adulteration of the specimen; and
 - (b) Limit access during the collection process to only those involved in the collection of urine specimens.

c. Safety Precautions and Collector Training

- (1) The vendor shall ensure that collectors reviewed and acknowledged the federal OSHA Bloodborne Pathogen regulations (29 C.F.R. 1910.1030). The vendor shall document the same in the collector's personnel file and the collector must certify they have received and understand the regulations. The vendor shall provide the documentation to the CO upon request.
- (2) The vendor shall ensure that all personnel handling urine specimens wear disposable gloves designed for protection against biohazards and are familiar with standard precautions for handling bodily fluids.
- (3) The vendor shall ensure collector training includes fostering respectful and appropriate interactions with defendants/persons under supervision regardless of gender, race, ethnicity, religion, cultural background, sexual orientation, or other personal characteristics.

d. General Urine Specimen Collection Procedures

- (1) The vendor shall ensure defendants/persons under supervision:
 - (a) Remove jackets, coats, and large pocket items before entering the collection area. These items can be placed on a hook or table inside the collection area.
 - (b) Set aside purse or other carried items. These items can remain in the collection areas; however, must remain outside of immediate access from the defendant/person under supervision.

 - (d) Roll up long-sleeved shirts so the collector can examine defendant's/person under supervision's arms to detect tampering devices or adulterants.
- (2) The vendor shall ensure that the collectors:
 - (a) Verify the identity of the defendant/person under supervision by means of a state driver's license, state identification or other acceptable form of photo identification.
 - (b) Collect specimens from only one donor at a time. Both the donor and the collector shall keep the specimen collection container in view at all times prior to it being sealed and labeled.
 - (c) Complete a Chain of Custody (provided by the Designee) before a defendant/person under supervision voids following the chain of custody procedures and peel the Barcode label from the Chain of Custody form and place it on the bottle.
 - (d) Collect a minimum of 30 milliliters of urine to allow the laboratory to conduct the initial presumptive screen and confirmation tests. A specimen with less than 10 milliliters of urine is not acceptable for testing and shall not be submitted, unless specifically authorized by the Probation or Pretrial Services Office, as the nationally contracted laboratory will not test it due to insufficient quantity.
 - (e) Not flush urinals/commode until the collection is completed and the collector advises it is safe to do so (a coloring agent is not necessary for direct observation of urine collection).
 - (f) Observe and document any indication (unusual color, odor) of specimen dilution and/or adulteration, or any unusual

- collection events or discrepancies.
- (g) Close and tightly secure the specimen collection container, to ensure it will not leak. The collector shall ensure the container is tightly secured.
- (h) Review the temperature of the specimen to determine if it is near body temperature, if applicable. If temperatures strips are provided by the Designee, the temperature of the specimen should be measured within 4 minutes of collection and should be within a range of 90 - 100 degrees.
- (i) Use tamper evident tape or label across the top of the bottle cap and down the sides of the bottle, and the collector or defendant/person under supervision shall initial the tamper tape or label.
- (j) Sign the Specimen Collection Statement of the Chain of Custody Form. The collector shall not sign the certification area of the form until the collection process is completed.
- (k) Have the defendant/person under supervision sign the Chain of Custody Form after the collection process is completed.
- (l) Follow notification protocols outlined in this Statement of Work under Notifying USPO/USPSO of Defendant/Person Under Supervision Behavior.

e. **Observed Urine Specimen Collection Procedures**

The vendor shall:

- (1) Directly observe defendants/persons under supervision voiding into a specimen collection container. Collectors conducting direct observation of urine collection shall be the same gender as the defendant/person under supervision providing the specimen (no exceptions).
- (2) The use of mirrors is acceptable if the mirrors aid the collector in viewing the voiding process.

f. **Unobserved Urine Specimen Collection Procedures**

The vendor shall perform the following urine specimen collection procedures if circumstances prevent the observed collection of a specimen. Unobserved urine collection should be a rare occurrence and not a general manner of vendor operations. The vendor shall ensure that collectors:

- (1) Take unobserved specimens **only** when the defendant/person under supervision and the collector are not of the same gender or it is virtually impossible to collect an observed specimen. If circumstances necessitate the collection of unobserved specimens, the vendor shall contact the CO

for approval prior to the collection. If unobserved collection has not been approved, the vendor shall not invoice for the collection.

- (2) Secure any source of water in the area where the collection occurs, by either shutting off the water or securing its access with tamper evident tape.
- (3) Remove and/or secure any agents that could be used to adulterate the specimen, such as soaps, cleaners, and deodorizers.
- (4) Clearly document on the Chain of Custody Form all unobserved collections and document and obvious signs of substitution or contaminants.
- (5) When provided by the Designee, use a temperature strip to measure urine specimen temperatures which should range between 90- and 100-degrees Fahrenheit. The time from voiding to temperature measurement is critical and in no case shall exceed 4 minutes.
- (6) Obtain a second specimen from defendant/person under supervision if the urine specimen temperature is outside the specified range. To prevent dilute specimens, limit fluid intake by the defendant/person under supervision to no more than 8 ounces per hour.
- (7) Place a coloring agent in the commode to deter dilution of the specimen with commode water.
- (8) Follow all general collection procedures in subsection d above.

- (2) The collector places the specimen and corresponding Chain of Custody Form in the approved shipping container, notifies the shipper/delivery service/courier that specimen(s) are ready to be delivered to the laboratory, and places such containers in the custody of an approved delivery service or courier.
- (3) Specimens shall be mailed/shipped no later than the close of

business the day the specimens are collected, or the morning of the day following the collection.

- (4) Urine specimens are stored in a secure area with access limited only to collectors or other vendor authorized personnel.

- (5) The specimen identifier (i.e., bar code number) on the bottle is identical to the number on the Chain of Custody Form.
- (6) The collector’s signature is on the Chain of Custody Form.

When any of the above conditions are not met, “No Test” will be stamped on the request report form and the reason for the no test will be checked or written in the space provided. Specimens that cannot be tested will be discarded. The vendor shall ensure that **all** the above conditions are present for specimens sent to the national drug testing laboratories and local or regional on-site laboratories. For districts using a local or regional on-site laboratory for testing of samples, the Chain of Custody Form shall also include the signature of the defendant/person under supervision.

For specimens that are received by the national drug testing laboratories or local or regional on-site laboratories and are untestable in accordance with the no-test policy or failure to follow the required collection guidelines, the vendor shall not invoice the district for the cost of the collection. The Designee will provide notification to the vendor of untestable specimens.

i. **Random Urine Specimen Collection Procedures**

The vendor shall provide random urine specimens collections in accordance with the following:

- (1) The vendor shall collect random urine specimens at the frequency determined and authorized in the Probation Form 45.

k. **National Contract Urinalysis Laboratories**

Some initial urine specimens are analyzed under a separate national laboratory contract secured by the Administrative Office of the U.S. Courts. Any confirmation testing completed on urine specimens that have a presumptive positive result shall be done by the national contract testing laboratory. The Designee shall provide supplies and instructions for the shipping and handling of specimens.

1. **Onsite Screening Urinalysis Laboratory**

Urine specimens are analyzed by onsite local or regional laboratories at some locations in Probation and/or Pretrial Services Offices. Specimens sent to these facilities shall be processed in the same manner as listed above. Upon award, the CO shall notify the vendor that it uses an on-site testing laboratory and provide supplies and instructions for the shipping and handling of specimens.

SUBSTANCE USE SERVICES

2. **Substance Use Assessment (2011)**

Treatment for drug use depends on the type of drug and the severity of abuse as well as other factors specific to the individual. - (a) Definitions. As used in this clause —

“Breach” means the loss of control, compromise, unauthorized disclosure, unauthorized acquisition, or any similar occurrence where an unauthorized person accesses or potentially accesses Sensitive Information, or an authorized user accesses Sensitive Information for an unauthorized purpose.

“Incident” means an occurrence that—

- (1) Actually or imminently jeopardizes, without lawful authority, the integrity, confidentiality, or availability of information or an information system; or

“Information System” means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

“Personally Identifiable Information (PII)” means information that can identify an individual, when used alone or with other relevant data. PII may contain direct identifiers (e.g., Social Security numbers) that can identify a person uniquely or quasi-identifiers (e.g., date of birth) that can be combined with other quasi-identifiers to successfully recognize an individual. The definition of PII is not anchored to any single category of information or technology. Examples of stand-alone PII that are particularly sensitive include: Social Security numbers (SSNs), driver's license or State identification numbers, Alien Registration Numbers (A-numbers), financial account numbers, and biometric identifiers.

“Privacy Information” means both PII and Sensitive Personally Identifiable Information (SPII).

“Sensitive Information” means any data or other information for which public disclosure, or disclosure to users without a need to know to perform their jobs, can harm individuals, the U.S. government, or private organizations. Sensitive Information includes Privacy Information and the following types of information:

- (1) Agreement Information. Information received by judiciary organizations, according to agreements with other federal, state, local, tribal, territorial, or private sector partners, that is required to be protected under the agreement with that partner or other applicable laws.
- (2) Procurement Information. Information related to procurements that is considered sensitive and is not normally shared with the public outside official processes. This includes internal information and documents related to procurements, source selection information, vendor proposals, and submitted information marked as proprietary or sensitive. This does not include the contractor’s own proposal(s) or contract(s) with the judiciary.
- (3) Information Systems Vulnerability Information (ISVI).
 - (A) Information technology (IT) systems data (e.g., systems inventories, enterprise architecture models) that reveal infrastructure used for servers, desktops, and networks; application name, version, and release; switching, router, and gateway information; interconnections and access methods; and mission or business use or need.
 - (B) Information about developing or current technology, the release of which could hinder judiciary objectives, compromise a technological advantage or countermeasure, cause a denial of service, or provide an adversary with sufficient information to clone, counterfeit, or circumvent a process or system.
 - (C) System vulnerability or weakness information that could be used to compromise the confidentiality, integrity, or availability of an information system.
- (4) Personnel Security Information. Information that could result in physical risk to judiciary personnel.
- (5) Physical Security Information. Information related to the protection of judiciary buildings, grounds, or property, including reviews or reports that illustrate or disclose facility infrastructure or security vulnerabilities. Examples include threat assessments, system security plans, security diagrams for judiciary buildings, contingency plans, risk management plans, business impact analysis studies, and certification and accreditation documentation.
- (6) Court Related Information. Sealed cases, sealed documents or other information marked as sensitive by a court. This includes Highly Sensitive Documents (HSD), which are documents or other materials that contain sensitive, but unclassified, information that warrants exceptional handling and storage procedures to prevent significant consequences from unauthorized access or disclosure.
- (7) Privileged/confidential Information. Information protected through recognized confidential relationships.
- (8) Official Business Information. Proposed budgets, draft plans or policies, other information intended only for consideration by internal decision makers or other confidential audiences.

“Sensitive Personally Identifiable Information (SPII)” is a subset of PII that if lost, compromised, or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual.

- (1) Multiple pieces of information, when combined, may pose an increased risk of harm to the individual. SPII may consist of any grouping of information that contains an individual's name or other unique identifier, plus one or more of the following elements:

 - (E) Sexual orientation;
 - (F) Criminal history;
 - (G) Medical information; and
 - (H) System authentication information (e.g., mother's birth name, account passwords, personal identification numbers (PINs)).
- (2) Other PII (e.g., list of employees and their performance ratings, unlisted home address, unlisted phone number) that may present an increased risk of harm to the individual depending on its context. The context includes the purpose for which the PII was collected, maintained, and used. The same information in different contexts can reveal additional information about the impacted individual.

(b) Accessing and Protecting Sensitive Information

- (1) Contractor roles and responsibilities regarding Sensitive Information. Before the contractor shall have access to Sensitive Information, the contractor shall coordinate with the contracting officer's representative (COR) about the contractor's roles and responsibilities regarding the Sensitive Information, and how an incident or suspected incident will be handled consistent with this clause and judiciary policies and procedures. Before they may access the Sensitive Information, the contractor, their staff, and subcontractors shall complete all forms, trainings, and briefings as may be necessary for security or other reasons.

- (3) Access. Contractor shall have access only to those areas of judiciary Sensitive Information resources explicitly stated in this contract or approved by the contracting officer or COR in writing, as necessary for performance of the work under this contract. Any attempts by contractor personnel to gain access to any information resources not expressly authorized by the terms and conditions in this contract, or as approved in writing by the contracting officer or COR, are strictly prohibited. If this clause is violated, the

judiciary will take appropriate actions regarding the contract and the individual(s) involved.

(4) Protection Requirements

(A) Contractor shall safeguard all Sensitive Information and shall take reasonable measures to prevent the unauthorized use, disclosure, or loss of Sensitive Information. This includes Sensitive Information in any medium or form, including electronic, oral, or paper.

(B) Contractor and their subcontractors shall safeguard Sensitive Information whether it resides on judiciary owned and operated information systems, judiciary owned and contractor-operated information systems, contractor-owned and/or operated information systems operating on behalf of the judiciary, and any situation where contractor and/or subcontractor employees may have access to Sensitive Information because of their relationship with the judiciary.

(C) Sensitive Information shall not be stored on a mobile device or portable electronic media and shall be handled with awareness of the surroundings, so that the Sensitive Information is not disclosed to unauthorized individuals. Sensitive Information shall be secured when unattended or not in use. If performance of the contract requires the contractor to access Sensitive Information on a mobile device or portable electronic media, they shall notify the contracting officer and COR and provide details on the use case required and how such use will comply with this clause and all other applicable policies and guidelines. The COR will work with the contractor and determine if such a use case is acceptable. The contractor shall not use or store Sensitive Information on a mobile device or portable electronic media until the contracting officer provides acceptance of the use case.

(D) Contractor shall encrypt Sensitive Information if the Sensitive Information is in transit or is stored outside of judiciary networks. This includes any Sensitive Information that may reside on, or transit contractor-owned or operated information systems.

(E) All Sensitive Information must be appropriately labeled, secured, and be properly returned, disposed of, or sanitized when no longer needed or at the end of the contract. See section (e) of this clause for more guidance on returning, sanitizing, and disposing of judiciary Sensitive Information.

(F) Removal. The contracting officer may require the contractor to prohibit individuals from working on the contract if the judiciary deems their initial or continued employment on the contract contrary to the public interest for any reason, including, but not limited to, carelessness, insubordination, incompetence, or security concerns.

(c) Incident Reporting Requirements

(1) Contractors and subcontractors shall report all known or suspected incidents to the Security Operations Center (SOC), which is staffed 24 hours per day, seven days per week.

(A) When reporting incidents to the SOC, contractors and subcontractors shall submit the report by:

- (i) email to soc@ao.uscourts.gov with courtesy copy to the contracting officer and COR using the contact information identified in the contract, or

- (ii) phone call to 202-502-4370, in which case the contractor must notify the contracting officer and COR immediately after reporting to the SOC.
 - (B) Contractors and subcontractors shall report all known or suspected incidents involving PII or SPII within one hour of discovery. All other incidents shall be reported within eight hours of discovery.
 - (C) Subcontractors shall notify the prime contractor if they have reported a known or suspected incident to the SOC. Lower tier subcontractors shall also notify their higher tier subcontractor, until the prime contractor is reached.
- (2) The judiciary will determine whether information exposed in an unauthorized disclosure or security breach of information under the contractor's control or in an information system under the contractor's control at the time of the incident is Sensitive Information, PII, or SPII by performing an assessment of the specific risk that an individual could be identified using the exposed information with other information that is linked or linkable to the individual. Information that is not PII when considered alone can become PII or SPII whenever additional information becomes available, in any medium or from any source, that would make it possible to identify an individual. Certain data elements are particularly sensitive and may alone present an increased risk of harm to an individual. Final determination of the categorization of exposed information as Sensitive Information, PII, or SPII will be made in writing by the contracting officer.
- (3) Sensitive Information transmitted via email shall be protected by encryption. When using regular email channels, contractors and subcontractors shall not include any Sensitive Information in the subject or body of any email. The Sensitive Information shall be included as a password-protected attachment with the password provided under separate cover, including as a separate email. Recipients of Sensitive Information shall comply with any email restrictions imposed by the originator.
- (4) No incident may, by itself, be interpreted as evidence that the contractor or subcontractor has failed to provide adequate information security safeguards for Sensitive Information or has otherwise failed to meet the requirements of the contract.
- (5) If an incident involves PII or SPII, contractors and subcontractors shall also provide as many of the following data elements that are available at the time the incident is reported, with any remaining data elements provided within 24 hours of submission of the initial incident report:
- (A) Unique Entity Identifier (UEI);
 - (B) Contract numbers affected, unless all contracts by the company are affected;
 - (C) Facility CAGE code, if the location of the event is different than the prime contractor location;
 - (D) Point of contact (POC), if different than the POC recorded in the System for Award Management (address, position, telephone, and email);
 - (E) Contracting officer POC (address, telephone, and email);
 - (F) Contract clearance level;
 - (G) Name of subcontractor and CAGE code, if this was an incident on a subcontractor network;
 - (H) Government programs, platforms, or systems involved;
 - (I) Location(s) of incident;
 - (J) Date and time the incident was discovered;
 - (K) Server names where Privacy Information resided at the time of the incident, both at the

contractor and subcontractor level;
(L) Description of the government PII or SPII contained within the system; and
(M) Any additional information relevant to the incident.

(d) Incident Response Requirements

- (1) All determinations by the judiciary related to incidents, including response activities, will be made in writing by the contracting officer.
- (2) The contractor shall provide full access and cooperation for all activities determined by the government to be required to ensure an effective incident response, including providing all requested images, log files, and event information to facilitate rapid resolution of incidents.
- (3) Incident response activities determined to be required by the government may include, but are not limited to, the following:
 - (A) Inspections;
 - (B) Investigations;
 - (C) Forensic reviews;
 - (D) Data analyses and processing; and
 - (E) Revocation of the Authority to Operate (ATO), if applicable.
- (4) The contractor shall immediately preserve and protect images of known affected information systems and all available monitoring or packet capture data. The monitoring or packet capture data shall be retained for at least 180 days from submission of the incident report to allow the judiciary to request the media or decline interest.
- (5) The judiciary, at its sole discretion, may obtain assistance from other Federal agencies and/or third-party firms to aid in incident response activities.

(e) Certificate of Sanitization of Government and Government-Activity-Related Files and Information

Upon the conclusion of the contract by expiration, termination, cancellation, or as otherwise indicated in the contract, the contractor shall return all Sensitive Information to the judiciary and/or destroy it physically and/or logically as identified in the contract, unless the contract states that return and/or destruction of Sensitive Information is not required. Destruction shall conform to the guidelines for media sanitization contained in NIST SP 800–88, Guidelines for Media Sanitization. The contractor shall certify and confirm the sanitization of all government and government-activity related files and information. The contractor shall submit the certification to the COR and contracting officer following the template provided in NIST SP 800–88, Guidelines for Media Sanitization, Appendix G.

(f) Other Reporting Requirements

Incident reporting required by this clause does not rescind the contractor's responsibility for other incident reporting pertaining to its information systems under other clauses that may apply to its contract(s), or as a result of other applicable statutory or regulatory requirements, or other government requirements.

(g) PII and SPII Incident Notification Requirements

- (1) All determinations by the judiciary related to notifications to affected individuals and/or federal agencies and related services (e.g., credit monitoring) will be made in writing by the contracting officer.
- (2) No later than five business days after being directed by the contracting officer, or as otherwise required by applicable law, the contractor shall notify any individual whose PII or SPII was either under the control of the contractor or resided in an information system under control of the contractor at the time the incident occurred. The method and content of any notification by the contractor shall be coordinated with, and subject to prior written approval by, the contracting officer. The contractor shall not proceed with notification unless directed in writing by the contracting officer.
- (3) Subject to government analysis of the incident and direction to the contractor regarding any resulting notification, the notification method may consist of letters to affected individuals sent by first-class mail, electronic means, or general public notice, as approved by the contracting officer. Notification may require the contractor's use of address verification and/or address location services. At a minimum, the notification shall include:
 - (A) A brief description of the incident;
 - (B) A description of the types of PII or SPII involved;
 - (C) A statement as to whether the PII or SPII was encrypted or protected by other means;
 - (D) Steps individuals may take to protect themselves;
 - (E) What the contractor and/or the government are doing to investigate the incident, mitigate the incident, and protect against any future incidents; and
 - (F) Information identifying who individuals may contact for additional information.

(h) Credit Monitoring Requirements

The contracting officer may direct the contractor to:

- (1) Provide notification to affected individuals, as described in paragraph (g)(2).
- (2) Provide credit monitoring services to individuals whose PII or SPII was under the control of the contractor or resided in the information system at the time of the incident for a period beginning the date of the incident and extending not less than 18 months from the date the individual is notified. Credit monitoring services shall be provided from a company with which the contractor has no affiliation. At a minimum, credit monitoring services shall include:
 - (A) Triple credit bureau monitoring;
 - (B) Daily customer service;
 - (C) Alerts provided to the individual for changes and fraud; and
 - (D) Assistance to the individual with enrollment in the services and the use of fraud alerts.
- (3) Establish a dedicated call center. Call center services shall include:
 - (A) A dedicated telephone number to contact customer service within a fixed period;
 - (B) Information necessary for enrollees to access credit reports and credit

- (D) Weekly reports on call center volume, issue escalation, and other key metrics;
- (E) Customized frequently asked questions, approved in writing by the contracting officer in coordination with the Judiciary Breach Response Team (BRT); and
- (F) Information for enrollees to contact customer service and fraud resolution representatives for credit monitoring assistance.

(i) Subcontracts

- (1) The contractor shall insert this clause in all subcontracts and require subcontractors to include this clause in all lower tier subcontracts when subcontractor employees will:

- (A) have access to Sensitive Information;
- (B) have access to or handle systems containing Sensitive Information;
- (C) collect or maintain Sensitive Information on behalf of the Judiciary; or
- (D) use a subcontractor information system(s) to process, store, or transmit Sensitive Information.

- (2) Any violation by a subcontractor of any of the provisions established in this clause will be attributed to the contractor.

- (3) Any breach or incident, as defined in paragraph (a) (Definitions) of this clause, experienced by a subcontractor will be attributed to the contractor for the purpose of triggering contractor compliance with the requirements in paragraphs (c) (Incident Reporting Requirements), (d) (Incident Response Requirements), (f) (Other Reporting Requirements), (g) (PII and SPII Incident Notification Requirements), and (h) (Credit Monitoring Requirements) of this clause.

I.6 Clause B-5 Clauses Incorporated by Reference - (SEP 2010)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the contracting officer will make their full text available. Also, the full text of a clause may be accessed electronically at this address:

<http://www.uscourts.gov/procurement.aspx>

The clauses listed below are applicable to Agreements and Contracts at any value.

Clause 1-15	Disclosure of Contractor Information to the Public	AUG 2004
Clause 3-25	Protecting the Judiciary's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment	MAR 2019
Clause 3-160	Service Contract Labor Standards	MAR 2019
Clause 3-205	Protest After Award	JAN 2003

(a) Definitions. As used in this clause –

"System for Award Management (SAM)" means the federal government owned and operated free website that replaced the Central Contractor Registration (CCR) and is the primary government repository for contractor information required for the conduct of business with the government.

Unique entity identifier (UEI) means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing UEI.

"Registered in the SAM database" means that –

- (1) The contractor has entered all mandatory information, including the UEI, into the SAM database; and
 - (2) The government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record "Active". The contractor will be required to provide consent for TIN validation to the government as a part of the SAM registration process.
- (b) (1) By submission of an offer, the offeror acknowledges the requirement that a Prospective awardee shall be registered in the SAM database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.
- (2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "Unique Entity Identifier" followed by the UEI that identifies the offeror's name and address exactly as stated in the offer. The UEI will be used by the contracting officer to verify that the offeror is registered in the SAM database.
- (c) If the offeror does not have a UEI, it may obtain one at SAM.gov. The offeror should be prepared to provide the following information:
- (1) company legal business name;
 - (2) tradestyle, doing business, or other name by which your entity is commonly recognized;
 - (3) company physical street address, city, state and ZIP code;
 - (4) company mailing address, city, state and ZIP code (if different from physical);
 - (5) company telephone number;
 - (6) date the company was started;
 - (7) number of employees at your location;
 - (8) chief executive officer/key manager;
 - (9) line of business (industry);
 - (10) company headquarters name and address (reporting relationship within your entity).

- (d) If the offeror does not become registered in the SAM database within the time prescribed by the contracting officer, the contracting officer will proceed to award to the next otherwise successful registered offeror.
- (e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.
- (f) The contractor is responsible for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the government's reliance on inaccurate or incomplete data. To remain registered in the SAM database after the initial registration, the contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.
- (g) Change of Name and Novation Agreements:
 - (1) If a contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of name agreements, the contractor shall provide the responsible contracting officer a minimum of one business day's written notification of its intention to:
 - i. Change the name in the SAM database;
 - ii. comply with the requirements of Guide to Judiciary Policy, Vol. 14, § 745.55; and
 - iii. agree in writing to the timeline and procedures specified by the responsible contracting officer. The contractor must provide with the notification sufficient documentation to support the legally changed name.
 - (2) If the contractor fails to comply with the requirements of paragraph (g)(1) of this clause, or fails to perform the agreement at paragraph (g)(1)(iii) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information showing the contractor to be other than the contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.
- (h) Assignment of Claims The contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims. Assignees shall be separately registered in the SAM database. Information provided to the contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than the contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

- (i) Offerors and contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.SAM.gov> or by calling 1-866-606-8220 or at <http://www.FSD.gov>.

Form Disclosure

This Model Sex History Disclosure Polygraph Questionnaire (“Model Policy Questionnaire”) was prepared by the American Polygraph Association’s (APA) Post Conviction Sex Offender Committee (PCSOT Committee) and approved by the APA Board of Directors on August 26, 2023. The PCSOT Committee endeavored to incorporate in this Model Policy Questionnaire the most current information and contemporary professional judgment on this issue. However, no “model” policy or “model” questionnaire can meet all the needs of any given agency, polygraph examiner, or other sex offender team member (sex offender team). While this Model Policy is provided to assist in standardizing and promoting the effectiveness of the Sexual History Exam each sex offender team operates in a unique environment of federal court rulings, state laws and court rulings, local ordinances, regulations, and administrative decisions. In addition to these considerations, the formulation of specific sex offender team policies and questionnaires should consider local political and community perspectives and customs, prerogatives and demands; divergent strategies and philosophies; and the impact of varied resource capabilities, unique circumstances of the sex offender, among other factors.

This Model Policy Questionnaire is informational and not intended as professional, legal, or other advice or as a substitute for advice from a professional or attorney. If you require professional, legal, or other advice about the subject of this Model Policy Questionnaire, you should seek the services of a professional or attorney in your jurisdiction.

The APA disclaims all liability to any party for any direct, indirect, implied, punitive, special, incidental, or other consequential damages arising directly or indirectly from any use of this Model Policy Questionnaire.

Model Sexual History Disclosure Polygraph Questionnaire

Information for Treatment and Supervision Team Members

This Model Sex History Disclosure Polygraph Questionnaire is provided to assist convicted persons, treatment providers, supervising officers and polygraph professionals to increase the standardization and effectiveness of the Sexual History Exam (SHE), as described in the APA Model Policy for Post Conviction Sex Offender Testing. The SHE is a screening polygraph used to investigate the veracity of a convicted persons' self-reported history of involvement, in uncharged or unreported sexual offense behaviors and sexual behaviors that may be indicators of sexual compulsivity, sexual pre-occupation, or sexual deviancy. The SHE should be used when a referring professional wants to investigate a convicted person's lifetime history of uncharged/unreported sexual offense behaviors. The SHE is conducted on persons convicted of sexual offenses, in the absence of any allegation or incident other than the crime of conviction or other known historical convictions. Polygraph testing via the SHE is not intended to investigate reportable crime information and should not be interpreted as deterministic or infallible. Instead, test results can be thought of as categorical conclusions based on the probabilistic strength of information or margin of uncertainty along with the stated tolerance for risk of error.

Behavioral targets should be selected in collaboration with the referring professional for their operational relevance to risk assessment, risk management and treatment planning. Target questions may include behaviors related to the selection of, access to, control or silencing of, and impact on abused persons. Target issues may also include non-contact sexual offense behaviors, as well as behaviors related to grooming, manipulation, use of violence, physical force, restraint, threats of harm, and building or exploiting relationships as a means of gaining access to others for sexual abuse. Target issues may also provide information about involvement or non-involvement in behaviors that may be indicative of sexual compulsivity or preoccupation. Although it is unrealistic to attempt to test and fully resolve every possible sex history target, or to assume that it is possible to know everything about a convicted person's entire lifetime of sexual behavior, the SHE commonly addresses a range of different target behaviors that are interpreted with an assumption of independence. In other words, the SHE is a multiple issue test, subject to the advantages and limitations of omnibus analysis. The SHE can also be conducted as a narrowly focused single-issue exam, or as a series of single-issue exams. Validated polygraph test formats can be used with two to four relevant target issues.

Examiners should familiarize themselves with the types of sexual behavior that play an important role in sex offense risk assessment and sex offense treatment. Some sexual behaviors, for example, may be indicative of sexual compulsivity or preoccupation for which the actual number of incidents, for those who admit these behaviors, may not add additional information – though such test questions may be useful with convicted persons who substantially deny any involvement in those behaviors.

Information and results from these examinations are intended to assist in risk assessment, risk management and treatment planning. The goal of these polygraph examinations is not to identify prosecutable crimes, but to obtain information about an individual's sexual attitudes and behaviors, and to help clarify whether a person has a history of acting on particular sexual interests, desires, or patterns of problematic sexual behavior. For persons who have not engaged in particular behaviors, the goal is to establish a basis of evidence to support professional conclusions to accept the veracity of the individual's statements. Information and results from these examinations should be reported only to the professional members of the supervision or treatment team unless otherwise directed by law.

Information for Examinees

Information requested in this Sex History Disclosure Polygraph Questionnaire is intended to help your treatment and supervision team members with treatment planning, risk assessment tasks, and risk management goals. Do not provide any identifying information of uncharged sexual behavior such as; dates, location, relationship, or any other information that reveals the identity of another person. Something that is “uncharged” is a behavior you have not been convicted of. Examples of this may include (but are not limited to) a sexual behavior where you plead to a non-sexually related crime, a sexual behavior that led to a violation instead of a new conviction, the sexual behavior qualified for youthful offender status, and/or deferred sentencing such as accelerated rehabilitation. However, you are requested to be truthful and honest about your history of sexual behavior patterns. The information and forms in this Sexual History document are designed to help you to be truthful and successful. Refer to the included Operational Definitions and talk to your treatment and supervision team members for information if you have any difficulty understanding the information or these instructions. Truthfulness about your sexual history may be viewed as a milestone or indicator of engagement and progress in treatment.

Directions:

1. Complete every page (every form) even if you have nothing to report. If you have nothing to report about a particular behavioral question simply state that on the form, or cross out the form, and then sign and date the form. If someone assisted you in completing each form, have them write their name at the bottom of each form.
2. **Do not** include personal identifying information for any other person. This includes:
 - a. Their name,
 - b. Relationship to you (such as identifying children, nieces, grandparents, etc.).
 - c. The exact dates of a behavior or incident,
 - d. The exact location or jurisdiction where a behavior or incident occurred, and
 - e. Other identifying information.
3. When completing the forms, please include only the information requested (i.e., age of the other person, gender of the other person, if they were related to you or not, if you knew the person more or less than 24 hours, etc.)
4. If you do not understand any information requested, you may write or indicate that on the form. Then sign and date the form.
5. If you prefer to discuss the information with your treatment provider or with your supervising officer before completing each form, or during the polygraph interview you may write or indicate that on the form. Then sign and date the form.
6. The timeframe of interest to your Sex History Polygraph is your entire lifetime. However, your treatment and/or supervision team member may provide you with individualized instruction or guidance about how to complete the Sex History Disclosure Polygraph Questionnaire which may include a different time frame.
7. Complete all of the sexual behavior forms first. Again, do not put any other person’s personal identifying information on these forms. There are four sections in the Sexual History Document: Personal Sexual History, Sexual Offense Behaviors, Non-Contact Sexual Offense Behaviors, and Viewing Nudity/Pornography/Erotica/Sexual Stimulating Image.
8. Complete the summary forms for the first 2 after you have completed the sexual behavior forms.

Please talk with your treatment and supervision team member if you have any difficulty understanding the information. You are not required to provide identifying and reportable information about unknown crimes.

Operational Definitions

From Section 6.0 of the Post Conviction Sex Offender Testing (PCSOT) Model Policy

Every behavior of concern to the multi-disciplinary supervision and treatment team is anchored by an operational definition. Experience has shown that all of these behaviors can be discussed without disclosing personally identifiable or reportable information.

- A. **Physical sexual contact:** refers to rubbing or touching another person's sexual organs (i.e., breasts, buttocks, genitalia) whether over or under clothing, for the purpose of sexual arousal, sexual gratification, sexual stimulation or sexual "curiosity." This includes having, allowing, or causing another person to rub or touch one's own sexual organs, whether over or under clothing. This does not include medical care with adults or children, or parental contact with children's private areas in the form of diapering, wiping, bathing, dressing, or changing, unless done for the purpose of sexual arousal or stimulation.
- B. **Non-contact sexual behavior:** refers to sexual behaviors such as exhibitionism, voyeurism, public masturbation, child pornography, or other sexual behaviors that are unlawful but do not involve physical contact.
- C. **Sexual contact:** any form of contact with an individual for the purpose of sexual arousal, sexual gratification, sexual stimulation or sexual "curiosity."
